Address: THE EVENING REPUBLICAN, 125  
South Water street, Decatur, Illinois.

TUESDAY, JUNE 26, 1894.

REPUBLICAN TICKET.

For Congress,  
MAJOR J. A. CONNOLLY.  
County Judge,  
WILLIAM L. HAMMER.  
County Treasurer,  
CHARLES H. PATTERSON.  
County Clerk,  
JAMES M. DODD.  
Sheriff,  
JERRY P. NICHOLSON.  
County Superintendent of Schools,  
JOHN G. KEILER.

The Blaine people voted solidly for McKinley at Minneapolis, and now the majority of those who voted for Harrison at the same convention are for McKinley also. If those who supported McKinley then did it from proper motives, there is no reason why they should not do so again.

The attention of the country is called to the fact that since Conger, of Ohio, and certain other Republican faction breeders, have conspired to defeat the nomination of McKinley, the Democratic press has discovered that they are "frank and manly" Republicans. Nothing would please the Democrats quite so well as the defeat of McKinley at the next national convention.

Reports brought in from over the county to the county central committee indicate that the sentiment of the people here, as elsewhere, is in favor of dispensing with the further services of the Democratic party. These reports also show that the Republican county ticket is growing in favor every day, and that the county of Macon, which stood up so well against the deception of the opposition in 1892, will keep pace with the demands all over the country for a change.

The Democratic convention Saturday endorsed the effort of the Democratic congress to reform the tariff. That convention was in error in the terms it used. The present congress is not trying to reform the tariff. It is trying to arrange a tariff bill that will fit the notion of every Democrat in congress, and such a bill is not a reform measure, it is simply a device invented for a certain purpose. That purpose seems to be a reform in geography, as by its schedules one may determine with great accuracy in what section of the country the articles enumerated are produced.

When Republicans are complaining about certain things connected with the Republican convention none felt so terribly outraged about it, and none con-  
doled with them so much as the local Democratic leaders. But since the Democratic county convention sat, like rats in a trap, and saw five men name the delegates to the senatorial, congressional and state conventions the paroxysms of Democratic grief over Republican mistakes are less frequent and less violent. There is this difference: When Republicans make a mistake they correct it as soon as possible. The mistakes of the other fellows have become customs.

Some of the evidences of the monstrous blunder the people made in 1892 in restoring the Democratic party to power may be seen in recorded facts, while other evidences equally as certain may be estimated. Some of the facts are that, since that party came into power there has been a shrinkage in revenues of about \$75,000,000, which is the first time since the government was wrested from the hands of the Democratic party in 1800 that the expenditures have exceeded the receipts, save that period covered by the war. Some months ago the gold reserve had run down until it was necessary to replenish it by the sale of \$50,000,000 of bonds, and now that reserve has again run down \$36,000,000 less than it should be for safety. In addition to this there is the fact that the clearing-house payments have declined \$2,000,000,000, which distinctly measures the decline of the cash business of the country. Wages and incomes have been diminished \$5,000,000 a day, or nearly two billion dollars in the last year, which is a great deal more than the yearly cost of the war for the preservation of the Union. This is the result of the substitution of different and bad policies and methods for those that were followed by the Republicans. This is enough to make the average voter think and think hard. These figures show that a blunder can do for the country and its effects are not confined to a few, but reaches all in some degree or other. There is but one remedy for all this. It is to turn out the party of false theories and dangerous policies, and restore the party that applies business principles to the affairs of government, as men do in their private affairs. It is, being against hope to sit around waiting for

something to turn up. There can be no healthy resumption of prosperity under false business policies prevailing in the administration of the affairs of government. The only thing left for the people is to correct the error they made. That error consisted in putting the Democrats in. It can only be corrected by turning them out. That duty should be commenced at the polls next November.

WASHINGTON LETTER.

(From our Regular Correspondent.)

WASHINGTON, June 26, 1894.  
That Senator Chandler knew what he was talking about when he stated his belief, a few days ago, that the Whitney syndicate, in which it is known that ex-Gov. Russell, of Massachusetts, who was lately a guest of the White House, is interested and believed by many that Sec. Dan Lamont is also interested, had an understanding with somebody by which free coal was to be secured in the tariff bill from the house and senate conference committee, is now apparent to everybody who is familiar with the undercurrents of Democratic waters. And the understanding is with no less a personage than Mr. Cleveland himself, and it includes free iron ore, which a syndicate headed by Andrew Carnegie wishes to profit by, the idea being to establish a great steel making plant somewhere on tide-water, probably in Maryland, which will be supplied with Nova Scotia coal by the Whitney syndicate and Cuban iron ore by another syndicate, thus taking bread from the mouths of thousands of Americans engaged in the production of coal and iron ore. Can such an understanding be carried out? That it is contemplated is shown by the declaration of Senators Jones and Vest, who are certain to be members of the conference committee, to promise the Alabama and West Virginia senators when asked to do so, that they would stand out to the last against putting coal and iron on the free list. The house is, of course, ready to vote for free coal and iron, as it did in passing the original Wilson bill, and unless the Democratic senators from the states interested shall positively refuse their votes for the bill agreed upon by the conference committee, if coal and iron are put upon the free list, it looks as though the understanding might materialize into a solid fact, the Democratic party in congress being so largely dominated by trusts and syndicates.

Ex-Paramount Commissioner Blount is in Washington. It is presumed that he came to say to his great and good friend Grover that the people of his state having shown no disposition to appreciate his paramount abilities by electing him to an office he had come to the conclusion that a seat at the federal pie counter would be thankfully accepted. But, horrible to relate, it is said that his great and good friend Grover declined to see him and that he had to content himself with pouring his tale of woe into the ears of Private Secretary Thurber whose antipathy towards applicants for pie counter seats is as well known in Washington as the native Georgian's love for the juicy watermelon when it is red and ripe. Mr. Paramount will not be in danger of getting the summer complaint this season by mixing watermelon with official pie.

Senator Hill did not succeed either in defeating or getting any amendment modifying the income tax adopted, but he had lots of fun with the Democrats and the Populists. He taunted Senator Harris until the old gentleman was wild with rage, and he held Senator Allen, of Nebraska, and the Populists up to ridicule in a manner that will not soon be forgotten by the Pops. Hill did get one amendment adopted, and that was suggested sarcastically—to exempt the salary of the President of the United States from the income tax.

The cases of Havemeyer and Searles, of the sugar trust, have been duly certified to the grand jury for indictment for refusing to tell the Senate investigating committee about the trust's political contributions, although the Democratic Senators on that committee voted against it and tried to get the Senate to prevent it. There isn't the slightest danger, however, that either of them will be punished; they stand too well with the powers that be.

ager, L. Cloutat and learn how.  
dec15-dit

There is a well-defined case of small-  
pox at Tolono, and the people over there  
have been in something of a panic. The  
citizens in large numbers have been vac-  
cinated.

There's a candidate for sheriff in a  
Georgia county whose enemies accused  
him of having killed sixty-nine babies  
in one village. The idiot filed a formal  
denial. As a result, he has no chance of  
election, and feels that his usefulness in  
the community in which he lives is en-  
tirely gone.

The Spencer & Lehman company have  
the exclusive agency for the celebrated  
Troy Carriage company's surreys, also  
for the Henney Buggy company's full  
line of goods. A full assortment of  
carriages, buggies, road wagons, etc.,  
constantly on hand. Prices cheap and  
work warranted. feb6-dit

The Decatur policemen have received  
their new metropolitan uniforms for  
summer wear, procured at the B. Stine  
Clothing company's store. The suits  
are of the regulation military cut and  
quite stylish. White helmets go with  
the suits.

In the Y. M. C. A. Star lecture course  
the coming season the attractions will  
be Hannibal A. Williams, Shakespearean  
recital; the famous Moody Quartet,  
vocal; Hon. George R. Wendling; the  
John Thomas Concert company; Prof.  
J. B. DeMotte, scientific. Course tickets  
will sell at one dollar.

The second annual camp meeting of  
the Free Methodist church will be held  
at Oakland park beginning July 12, and  
continuing over two Sabbaths. Among  
the preachers expected to be here are  
Bishop W. T. Hogg, formerly of New  
York, but now of Greenville, Ill., and  
Rev. B. R. Boone, of Chicago, editor of  
the Free Methodist.

### ROCK PLASTER

### THE CITY COUNCIL.

#### Brief Session Held Last Night— Resolutions and Bonds.

A short session of the city council was  
held last night.

The application of M. F. Kanan for a  
quit claim to the east end of lots 7 and 8  
in D. L. Allen's addition, which is about  
South Main street, was referred.

The Public Improvement committee,  
to whom was referred the petition of  
property owners asking that West Deca-  
tur street from Edward to Monroe be  
paved thirty-three feet in width, made  
an adverse report which was adopted.

A. W. Williams' bill of \$54 for eighteen  
days' work inspecting paving was al-  
lowed.

City Engineer Burgess reported that  
the paving on East Prairie street, from  
Franklin to Broadway, was completed  
and ready for acceptance. The city's  
share is \$1,000. Referred.

AKC'Butler brought up the dog ques-  
tion, asking that overwise canines be  
caught and disposed of as the ordinance  
directs. Mayor McMill stated that Bill  
Laka, the dog catcher, had asked for  
more pay, 25 cents a dog. The ordinance  
allows him 50 cents a dog, with an extra  
25 cents for placing each canine in the  
pound. The mayor withdrew the name  
of Lake and appointed Greenberry Mar-  
tin, poundmaster, as dog catcher. He  
was immediately confirmed.

OFFICIAL BONDS.

These official bonds of appointees were  
filed:

Robert Blue, \$300—C. M. Barnett and  
A. H. Mills, sureties.

J. W. Williamson, \$1,000—A. H. Mills  
and Peter Perl, sureties.

and B. Stine, sureties.

George V. Loring, \$1,000—E. McClell-  
an and A. T. Rialley, sureties.

### What the Derby Winner Will Do

McDaniel, the modest appearing  
trainer of the American Derby of 1904,  
when questioned in Chicago as to the  
future movements of Ray E. Scales  
Antia, said: "The colt will remain here  
for the present. He has an engagement  
in the Realization, three days later. Mr.  
Baldwin has not yet advised me what  
his intentions are, but as the Sheridan  
will be worth some \$11,000 and will be a  
good deal easier than the Eastern race,  
I think the probabilities point to our re-  
maining here. We will not go to St.  
Paul—that, at least, is certain. As to  
the proposed sweepstakes next Satur-  
day I have had no opportunity to talk  
the matter over with Mr. Baldwin, so I  
say nothing. If he is content, however,  
to enter into the same, I have every  
confidence in my colt, and his race will  
be at least as good as that of last Satur-  
day, though possibly, Sunday's Derby  
might make a better showing than he  
did forty-eight hours ago."

### Were Not Scabbing.

The four dining room girls who left  
the Hotel Brunswick to accept places at  
girls who quit at the St. Nicholas were  
it emphatically understood that they  
are not what is known in union circles  
as "scabs." The question of wages was  
not enter into the change. The girls  
say: "This is a free country and we  
simply did what we had a right to do.  
It was nobody's business but our  
own. We wanted to quit at the Brun-  
swick and we quit. We wanted to go  
to the St. Nick, and we went there. This  
is all there is of it. We are not scab-  
bing. Now point it that way and you  
will have it right. And the com-  
mittee representing the girls, were they  
scabbing or not, is not allowed to say  
one word."

### Fish Yarns.

Some of our exchanges are inclined  
to doubt the truth of the stories told  
about the big catfish caught in the Sangamon  
river, weighing 30, 40 and 60 pounds.  
Kannedy doesn't propose to be caught.  
A White Oak man went fishing  
which he drew into the water, and  
his hand under a submerged log.  
He began to swallow the fish, and  
hold of the fish couldn't be broken.  
The fish was drawn up on the bank,  
the fisherman used a lever. This  
was the best he of the season, if  
judgments are not allowed to be  
one's judgment.

### DEATH OF CHARLEY MARCOTT.

#### He Passed Away Suddenly To-Day at His Home.

Charles J. Marcott passed away qui-  
etly in death this morning at 6:10 o'clock  
at his home, 388 East Wood street, in  
the 19th year of his age, after a protracted  
illness, the result of nervous prostration.

The deceased leaves a widow and one  
son, Henry Marcott; two nieces, Mrs.  
Ida Long, of Chicago, and Mrs.  
Emma Mercer, of Colorado; and a  
brother and sister, who reside at  
Montreal, Canada. Mr. Marcott was  
born in Quebec, Canada, December 24,  
1882, and came to Decatur in 1870, when  
he became a salesman for John McRob-  
erts, who was then in the grocery busi-  
ness. Later he was in charge of the old  
Shilling Mill grocery store, and subse-  
quently he was cashier for D. W. Bren-  
neman & Bro. For a time he was as-  
sociated with Daniel Deetman in the fur-  
niture business, retiring in 1892, at which  
time his affliction assumed acute form.  
He consulted Dr. Davis, of Chicago, and  
other eminent specialists in the treat-  
ment of nervous cases, besides going to  
Canada with his wife in search of a cure  
or relief; but the physicians gave him  
little encouragement. Since the fall of  
'92, the deceased has been steadily fail-  
ing in health and the end came quietly  
this morning. During Mr. Marcott's  
illness his wife and son have been de-  
voted in their attention to him, ever  
considerate of his comfort and procuring  
everything that would afford him  
even the slightest degree of relief or  
recreation.

The many friends of Charley Marcott  
in Decatur and other cities will regret  
to learn of his death. In the years of  
his business activity and health he was  
one of the most companionable of men,  
gentle, kind-hearted, generous and sym-  
pathetic. As a citizen he was always  
held in high esteem.

The funeral will take place from the  
family residence at 9:30 a. m., Thursday,  
June 26, Dr. Penhallegon, of the Presby-  
terian church, officiating.

### Decatur Done Up at the Capital.

The Decatur ball team suffered the  
worst defeat of the season at the hands  
of Springfield yesterday afternoon. The  
club has played twenty-two games this  
season and won eighteen successive vic-  
tories. Late in the tide has been against  
them and the crisis came yesterday,  
when a score of 14 was rolled up against  
them with 9 successive goose eggs to  
their credit. While the admirers of  
Springfield would have relished a close  
game, the contest was interesting and  
the Decatur boys accepted their defeat  
philosophically. While the team is  
clearly out-classed by the local players,  
it was plain the Decatur men know the  
points of the game and can do better  
work. Their catcher, Lynch, did admi-  
rable backstop work and provoked fre-  
quent applause by brilliant stops. His  
task was particularly exacting, owing to  
the erratic pitching of Flynn. The sec-  
ond baseman, M. Donahue, is another  
star player. He accepted some difficult  
chances, made the play of the day in  
a triple at first. He caught a hot  
liner from Fehr's bat, killed Gaudin by  
touching second with his foot and threw  
Gibson out at first in a quick and accu-  
rate play. Prolonged applause greeted  
the play.

### List of Patents

Granted to Illinois inventors this week,  
reported by C. A. Snow & Co., solicitors  
of American and Foreign patents, oppo-  
site U. S. Patent Office, Washington,  
D. C.:

C. L. Ames, Oak Park, vehicle wheel;  
W. F. Barnes, Rockford, lathes; W. Jack-  
away, Waukegan, cut-off for steam  
engines; L. N. Jackson and C. A. Smith,  
Elgin, mechanism for loading wet  
jewels; E. G. Johnson, Rockford, looms;  
S. D. Poole, Moline, Lister, cultivator;  
H. C. Stone, South Evanston, frictional  
clutch for harvesters; F. H. Taylor and  
F. Elley, Joliet, oil cellar for driving  
boxes for locomotives.

To the ones who wear Ten shoes:  
There is a prejudice against the high-  
color shoes, for the reason as few know  
how to take care of them. A shoe when  
used a month should look better than  
when new. Anyone purchasing a pair  
of shoes or slippers at Power's shoe  
store, can have a package of our im-  
proved Ten Dressing, free. We will  
also dress your old shoes (bought of us)  
free.

## THE HUMAN DYNAMO.

How to Light an Incandescent Lamp by  
Personal Electricity.

That everyone has enough natural electricity in his or her body to light up an incandescent lamp will strike most people as strange, yet it is true. Without dynamo, battery cell or like appliance of any kind other than certain manipulations of a stout pair of hands the experiment can be performed and an interesting result obtained.

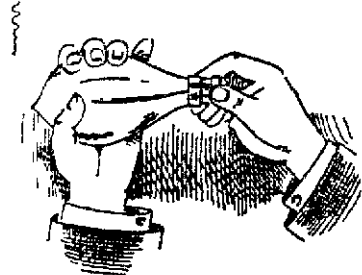

Even the average electrician, in whose scientific mind two and two always make four, may be skeptical, but his doubts will cease when he learns it is by frictional electricity that the lighting effect is to be obtained.

Most people have heard of that ancient experiment set down in the natural philosophies of school days by which, if the family cat is willing, you may produce a miniature pyrotechnic display merely by rubbing the cat's fur the wrong way. Performed in a dark room, that experiment is highly interesting, but it has the distinct drawback that the puss seldom or never cuts her nails.

To perform the lamp experiment, take an ordinary incandescent lamp globe—one that has been used—and grasp it at its lower or socket end with the thumb and fingers. The thumb and fingers of the other hand are then encircled around the wide part of the glass bulb, as in the illustration. The lamp is then moved rapidly back and forth through the hand that is around the bulb. If this is done and the experiment performed in a dark room the lamp will glow for some moments after the rubbing has ceased.

The illumination is most beautiful, being of a delicate cream color, with a slight bluish tinge, and appearing very much like a miniature aurora.

Although this is plainly a phase of frictional electricity, the exact reason for the phenomenon is not known; nor is it always successful under the same conditions. A recent experimenter,

THE HUMAN DYNAMO.

commenting on this strange conduct of the incandescent bulb, says:

"If ever a phenomenon was full of caprice, certainly this one is, for at times in following out the same conditions that have been acted upon previously no results whatever were produced. The experiment again has been a failure when tried at different locations, three or four miles apart, with the same lamp in use and taking precautions to carefully insulate the experimenter from possible contact with the earth.

"Certain persons seem unable to call forth vacuo after repeated attempts. The results are also modified by different kinds and sizes of lamps, the smaller bulbs appearing to give the best results."

In all of the experiments which were successful the glow appeared to be directly proportioned to the speed with which the lamp was moved and the distance of such movements. Of course, a limit of speed is soon reached above which it is impossible to proceed by manual power. The glow does not affect the filament at all, and there are no peculiar sensations felt in the hands. A slight crackling sound is at times noticeable.

It must not be supposed that it is the filament in the lamp that glows. That would be a mechanical impossibility. The part that lights up is the glass itself.—N. Y. World.

## ESSENTIAL OILS.

How They Are Supposed to Exercise Bactericidal Action.

M. Omelchenko has made experiments which confirm the views previously put forward that the vapors of essential oils exercise a bactericidal action. By using specially-contrived apparatus and passing through them air impregnated with the vapors to be studied, he was able also to establish the quantity necessary per liter of air. Thus the bacillus of typhus was killed by air containing the vapor from oil of cinnamon, 0.0003 grammes per liter, or oil of valerian, 0.0009 grammes per liter, in forty-five minutes. The bacillus of tuberculosis required to be exposed for twenty-three hours to air containing 0.018 grammes per liter of oil of cinnamon before fatal effects were produced. Oil of lavender, 0.0078 grammes per liter, effected the same result in twelve hours, and oil of eucalyptus, 0.0383 grammes per liter, in the same length of time. The degree of saturation must be maintained, or, after the first effects of the growth of the germs is prevented, their vitality is not destroyed. The oils are classified according to their strength as germicides, thus Cinnamon, fennel, lavender, cloves, thyme, mint, anise, eucalyptus, turpentine, lemon and rose, the last two being very weak in disinfecting power.—Bact. World.

## Free Pills.

Send your address to H. E. Bucklen & Co., Chicago, and get a free sample box of Dr. King's New Life Pills. A trial will convince you of their merits. These pills are easy in action and are particularly effective in the cure of Constipation and Sick Headache. For Malaria and liver troubles they have been proved invaluable. They are perfectly free of any habit-forming substance and are entirely safe. They do not cause any of the usual effects of purgatives, but by giving the bowels a regular movement, they prevent the accumulation of waste matter in the system. Regular use of these pills will keep the system in perfect health and prevent all the ailments that result from a sluggish bowels.

## SCIENTIFIC NOTES.

Electric phenomena, which play themselves, the large being done, and are thought by some to be the result of new being manufactured.

M. W. says that a temperature of one hundred and fifty-seven degrees below zero was registered at Woomajack, Eastern Siberia, in February, 1902. This is the lowest temperature ever registered on the face of the earth. The record recently made in Japan of the heating power of American and English locomotives on the Tokaido railway resulted decidedly in favor of American engines, and preference will be given to them in future.

We are told by Prof. Oliver Dodge, the celebrated physicist, that at the absolute zero of temperature (three hundred and seventy-three degrees C. or four hundred and fifty-nine degrees Fahrenheit) the molecules of a perfect gas would be so inert that they could be swept together in piles on the floor.

The average weight of the brain of an adult male is three pounds eight ounces, of a female two pounds four ounces. The nerves are all connected with it directly or by the spinal marrow. These nerves, with their branches and minute ramifications, probably exceed ten million in number.

It costs about forty-seven hundred and fifty dollars per shot to fire one of Krupp's one hundred and thirty-ton steel guns. The gun cost one hundred and ninety-five thousand dollars, and it can only be fired, at the most, sixty times. The gun has a range of fifteen miles, and the projectiles weigh twenty-six hundred pounds.

A HANOVERIAN botanist named Wehmer, it is reported, has discovered a microbe in the atmosphere, pure cultures of which will convert sugar into an acid identical with that of the lemon. This discovery is expected to revolutionize the citric acid industry and injure the lemon growers. Eleven parts of sugar by the new process, with very little effort, give six parts of acid.

## STATISTICAL.

The receipts from internal revenue for the past 10 months of the present fiscal year aggregate \$119,140,347, a decrease of \$13,841,775 as compared with the corresponding 10 months of 1903.

Of the \$26,305,986 worth of textile machinery exported by Great Britain in the year 1903 only \$8,445,320 was sent to the United States, pointing to how well builders of machinery in this country supply the wants of domestic manufacturers of textiles.—Bradstreet's.

The foreign trade of Japan, according to a Japanese statistical review, increased last year over the year preceding 15,000,000 "yen," about \$15,000,000. The entire export was valued at about \$68,000,000. The chief buyer of Japanese stuffs in the United States, \$33,750,000 of the \$69,000,000 having been paid by this country. Great Britain is next, paying \$32,000,000; then China, \$24,000,000, and then France, \$22,000,000. The exports to Germany amounted only to \$9,750,000.—N. Y. Tribune.

The exports of iron and steel from Great Britain for the four months to April 30 show a decided decrease. This year the total amount was 772,323 tons, valued at \$5,776,901, while in the corresponding period of last year it was 861,825 tons, valued at \$6,881,646; the diminution in quantity being 10.4 per cent, and in value 18.1 per cent. There has been a very large loss this year in the exports of railroad material to the Australian colonies, and a still larger one in the shipments of all classes of iron and steel to India, so that the manufacturers are realizing the effect of the silver policy in the latter country.—Engineering and Mining Journal.

## \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for a case that fails to cure. Send for list of testimonials. Address: F. J. Cheney & Co., Toledo, O. Sold by druggists, 75c.

Mrs. JULIA JOSEPHINE IRVING, who has been chosen Acting President of Wellesley College, was graduated from Cornell University in 1885, and was for several years a teacher in Chicago. She afterward became a student of Leipzig University, and in 1890 was appointed Professor of Greek in Wellesley.

## All Free.

Those who have used Dr. King's New Discovery know its value, and those who have not, have now the opportunity to try it free. Call on the nearest Druggist and get a Trial Bottle Free. Send your name and address to H. E. Bucklen & Co., Chicago, and get a sample box of Dr. King's New Life Pills Free, as well as a copy of Guide to Health and Household Instructor, Free. All of which is guaranteed to do you good and cost you nothing. King & Hubbard Druggists.

The royalties received by Henry Pettit for his plays during the last year of his life amounted to \$4,500, or about \$33,000. "A Life of Pleasure" produced nearly \$5,000, and a "Woman's Revenge" \$6,000.

**A Sound Liver Makes a Well Man.**  
Are you Bilious, Constipated or troubled with Jaundice, Sick Headache, Bad Taste in Mouth, Foul Breath, Costed Tongue, Dyspepsia, Indigestion, Hoax Dry Skin, Itch in Back and between the Shoulders, Chills and Fever, &c? If the liver has any of these symptoms, your liver is out of order, and your blood is slowly being poisoned. A sound liver does not get out of order. It keeps the blood pure and the system healthy. It is the most important organ of the body, and its health is the foundation of all other health. It is the only organ that can be kept in perfect health by the use of a few simple remedies. Dr. King's New Life Pills are the best for this purpose. They are perfectly free of any habit-forming substance and are entirely safe. They do not cause any of the usual effects of purgatives, but by giving the bowels a regular movement, they prevent the accumulation of waste matter in the system. Regular use of these pills will keep the system in perfect health and prevent all the ailments that result from a sluggish bowels.

## ECHOES FROM THE RAILS.

MARRIED couples in Norway are privileged to ride on railroads at a fare and a half for each couple.

CHICAGO is to have a belt line railroad of light tracks, and covering a route of nearly sixty miles. It is to connect with every road running into the city.

A PASSENGER car thirty-six feet long has been built of steel in Manchester for the Mexican Railway Company. It is said to be no heavier than a thirty-four-foot wooden car and will hold nearly three times as much.

The moose in Penobscot county are getting so accustomed to the Canadian Pacific's trains that they gaze calmly and critically at the locomotive, and are not disturbed by whistles or hissing steam jets.

## Ballard's Snow Liniment.

This Liniment is different in composition from any other liniment on the market. It is a scientific discovery which results in its being the most penetrating Liniment ever known. There are numerous white imitations, which may be recommended because they pay the seller a greater profit. Beware of these. It positively cures Rheumatism, Neuralgia, Sprains, Bruises, Wounds, Cuts, Scalds and Inflammatory Rheumatism, Burns, Scalds, Sore Feet, Contracted Muscles, Stiff Joints, Old Sores, Pain in Back, Barb Wire Cuts, Sore Chest or Throat, and is especially beneficial in Paralysis. Sold by C. H. Dawson, Druggist.

In condemning a Munich paper to pay a fine of \$25 for an unfavorable criticism of a new portrait, the original of which is well known there, the Judge said that a critic had a right only to judge a picture from an artistic point of view and not to draw any moral inferences.

## The New Spring Hats

are all adorned with roses. The roses are your cheeks can be retained by using Parke's Tea. It cures the blood of impurities, moves the bowels every day and gives health and strength to the user. Sold by W. F. Neider.

WOOTEN, the famous country place of the late George W. Childs, is now owned by George W. Childs, Druggist, who purchased it after Mr. Childs' death. Very little changes have been made in the house, and the grounds and trees are as beautiful as ever.

**RUDY'S FILE SUPPOSITORY** is guaranteed to cure Piles and Hemorrhoids in three sections are of the most encouraging nature, and a large number of miners from Colorado are pouring in.

LARAMIE, Wyoming, is enjoying a mining boom. Reports from the mines in that section are of the most encouraging nature, and a large number of miners from Colorado are pouring in.

SOMETHING wrong when you tire too easily. Something wrong when the blood is not clear and smooth. Something wrong when the blood is impure. Something right when you take Dr. King's New Life Pills. It recommends itself. C. H. Dawson.

## What a Prominent Insurance Man Says.

H. M. Blossom, senior member of H. M. Blossom & Co., 217 N. 3d St., St. Louis, writes: I had been left with a very distressing cough, the result of influenza, until I took Ballard's Horehound Syrup. One bottle completely cured me. I sent one bottle to my sister, who had a severe cough, and she experienced immediate relief. I always recommend this syrup to my friends.

John Cranston, 908 Hampshire street, Quincy, Ill., writes: I have found Ballard's Horehound Syrup superior to any other cough medicine I have ever known. It never disappoints. Price 50c. Sold by C. H. Dawson, Druggist.

It is stated in the Central American papers that the new Government of Honduras owes \$1,000,000 in gold to Nicaragua for the support which the latter gave to overthrow the former President of Honduras, Gen. Viquez.

## Bucklen's Arnica Salve.

The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chubblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by KING & HUBBARD.

EMPEROR WILLIAM of Germany is composing songs because Frederick the Great indulged in that occupation. If William's songs aren't better than Frederick's, posterity won't thank him.

## Our Grandmothers' Way

was to steep roots and herbs and use it every night. We can do the same by using Parke's Tea. Nothing acts so promptly and without discomfort. Not a pill or cathartic, but moves the bowels every day. Sold by W. F. Neider.

An astrologer calculates that if the diameter of the sun is daily diminished by two feet, over 3,000 years must elapse ere the astronomical instruments now in use could detect this diminution.

Dr. Witt's Sarsaparilla is prepared for cleansing the blood from impurities and disease. It does this and more. It builds up and strengthens constitutions impaired by disease. It recommends itself. C. H. Dawson.
